

Preamble by the Agency's Chair

Ladies and Gentlemen,

thank you very much for registering in the list of reviewers and your interest in working on a review panel of the Slovak Accreditation Agency for Higher Education (also the Agency or SAAHE).

The Agency regards the role of the review panels as crucial since accreditation decisions of the Executive Board are predominantly based on reviews by you, the panellists. Without well-functioning review panels and their evaluation reports, which reflect the expertise, professional outlook and objective approach of their members, the Agency could not possibly make quality decisions. Therefore, I consider it important that the Agency establishes a professional rapport with the reviewers and ensures regular communication with them. Part of this communication will include guidance.

To prepare you for the role of a panellist, the Agency has designed this Guidance material to provide you with adequate information on the Agency's mission, the Slovak higher education system, the place of a review panel in proceedings and the necessary legislative framework for your work.

We greatly value your expertise, your professional approach and experience in the evaluation of higher education institutions.

We look forward to our fruitful cooperation.

prof. Ing. Robert Redhammer, PhD.
Chairman of the Executive Board
